created
through rotation

Self Contained
ecosystems
and diverse habitats

within
Advanced propulsion and
enigmatic construction
methods

CIVILIZATIONS

RAMA

UNIVERSE

Advanced non-human
intelligence guiding the Rama
system
Encounters that reshape
explorers and civilizations alike

Cultures of extraordinary
scale, knowledge, and
purpose
A universe of coexistence,
evolution, and cosmic
reach

The Kardashev

MEASURING CIVILIZATIONAL
ADVANCEMENT
Scale

TYPE
I
PLANETARY
CIVILIZATION

Harnesses all
available
energy on its
planet

TYPE
II
STELLAR
CIVILIZATION

Controls and
utilizes
the energy of its
star

TYPE
III
GALACTIC
CIVILIZATION

Accesses and leverages
the energy of an entire
galaxy

Rama civilizations are thought to operate at **Type II to Type III**
on this scale.

ARE WE READY?

Technology advances faster than our understanding
which networks struggle to keep pace
Global cooperation remains fragile
The future we shape depends on the choices

we make today

What kind of civilization are we preparing for?

THANK

YOU

Thank you for your
attention.
